If you experience migraines, answering the questions below can help you and your doctor evaluate whether your current migraine management plan is working for you.

- | | YES | NO |
|--|-----------------------|-----------------------|
| 1. Are you able to quickly return to your normal activities (i.e., work, family, leisure, social activities) after taking your migraine medication? | <input type="radio"/> | <input type="radio"/> |
| 2. After taking your migraine medication, are you pain free within 2 hours for most attacks? | <input type="radio"/> | <input type="radio"/> |
| 3. Does one dose of your migraine medication usually relieve your headache and keep it away for at least 24 hours? | <input type="radio"/> | <input type="radio"/> |
| 4. Is your migraine medication well tolerated? | <input type="radio"/> | <input type="radio"/> |
| 5. Are you comfortable enough with your migraine medication to be able to plan your daily activities? | <input type="radio"/> | <input type="radio"/> |
| 6. After taking your migraine medication, do you feel in control of your migraines enough so that you feel there will be no disruption to your daily activities? | <input type="radio"/> | <input type="radio"/> |

Remember to share the completed survey with your healthcare provider

Note: The questionnaire above is the mTOQ-6 (migraine Treatment Optimization Questionnaire), a validated measure developed to assess response to acute treatment in persons with migraine.

Nurtec™ ODT

(rimegepant) orally disintegrating tablets 75 mg

IMPORTANT SAFETY INFORMATION

Do not take Nurtec ODT if you are allergic to Nurtec ODT (rimegepant) or any of its ingredients.

Before you take Nurtec ODT, tell your healthcare provider (HCP) about all your medical conditions, including if you:

- have liver problems,
- have kidney problems,
- are pregnant or plan to become pregnant,
- breastfeeding or plan to breastfeed.

Tell your HCP about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

Nurtec ODT may cause serious side effects including allergic reactions, including trouble breathing and rash. This can happen days after you take Nurtec ODT. Call your HCP or get emergency help right away if you have swelling of the face, mouth, tongue, or throat or trouble breathing. This occurred in less than 1% of patients treated with Nurtec ODT.

The most common side effect of Nurtec ODT was nausea (2% of patients). This is not the only possible side effect of Nurtec ODT. Tell your HCP if you have any side effects.

You are encouraged to report side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088 or report side effects to Biohaven at 1-833-4Nurtec.

WHAT IS NURTEC ODT?

Nurtec ODT (rimegepant) orally disintegrating tablets is a prescription medicine for the acute treatment of migraine attacks with or without aura in adults. Nurtec ODT is not used as a preventive treatment of migraine. It is not known if Nurtec ODT is safe and effective in children.
